Job Opening: Production Technician

Apricot Designs, Inc. is an established manufacturer of Bio-Tech automated lab equipment located in the San Gabriel Valley for over 30 years. With offices in China and a network of distributors worldwide, we serve the lab automation needs of researchers, scientists, and lab professionals.

Job Description

This position is for a Production Technician. The position includes but is not necessarily limited to the following job responsibilities

Major Areas of Responsibility

- Assemble components and sub-assemblies.
- Assemble and wire machines per drawings
- Install firmware, drivers & apps.
- Assist in the assembly and construction of instruments.
- Perform QC checks, trouble-shoot and run tests.
- Provide production status and updates to Production Manager.
- Other production related services

Specific Qualifications of the Job

- Experience in electrical and mechanical assemblies.
- Experience in reading electrical and mechanical drawings.
- Experience in working with hand tools and soldering.
- Ability to coordinate and manage multiple projects with short deadlines.
- Self-motivated and a quick learner.
- Highly organized.
- Ability to speak Chinese is a plus.
